

Summer School Grant

Barr's Hill School used the summer school grant to run a week long summer school for new Year 7 students in August 2021. All 180 students were offered places. Uptake was over 100 daily. The summer school included transition work, academic support and activities, sport and physical exercise, drama and performing arts, teambuilding activities and use of external organizations such as the army to run sessions. Other than the externally run sessions the summer school was staffed entirely by Barr's Hill School employees.
