

Meet some of our current Year 7 Students

Hello, to the people that are getting ready for the new Year 7.

I am going to tell you how I felt when I was going to year 7 from Year 6. I felt scared a little bit because it was going to change my life in secondary school. When I started, it was worrying, because of the teachers and the work. Being in The Bridge is better for the year7 because all of us are away from the rest of the school. You do great things in your classes and go on some amazing trips! I made lots of friends in Year 7.

It is the best school I have been to!

Warren

Hello new Year 7's.

I will be telling about the Bridge and my first year at Barr's Hill. It was worrying at first because of how much work we had to do and what the teachers were like. Really I was worrying over nothing. It has been incredible. We have done lots of cool things and there is so much sporting clubs you can do. We learn some different languages and we do a few more cool experiments in Science.

Leah

Hi there!

I see The Bridge as an intermediate learning environment for newcomers from Primary School to Secondary School in Barr's Hill. It is a fun way to learn new things about life in Secondary School as even University!

My experience is quite different from other people in my Year group. I had less friends coming to Barr's Hill, so my main goal was to get as many friends as I possibly could while still learning and I did! The teachers are very helpful and supportive including the headteacher, Mr Jupp. The main thing is, you'll have a lot of fun learning in The Bridge.

Paramudya

On my first day at Barr's Hill school, I felt very nervous but was excited too. I soon lots of new friends and my teachers helped me if I got lost. My time in The Bridge has been good and fun. We have different lessons each day and we have to move to different classrooms but they are all in The Bridge, which makes it easier for us. We get to do different clubs at lunchtimes and afterschool club, I especially like playing Basketball.
