

The RE Curriculum

RE curriculum vision			
<i>The overarching intent of the RE curriculum is to provide students with the knowledge and skills to become enthusiastic and capable theologians and philosophers. The choice of content to be taught is based upon two key factors; firstly, the need to link learning about religion and belief to the modern world and the lives and experiences of pupils, and secondly, to provide Social, Moral, Spiritual, and Cultural education (SMSC) to help develop character in line with the school's 7 year journey. Furthermore, throughout KS3, students develop key skills in in argument which will improve their outcomes at KS4.</i>
